

# PUBLIC HEALTH WARNING

ALL WIRELESS DEVICES EMIT MICROWAVE RADIATION—a known biological hazard

**EVERY TIME YOU USE A WIRELESS DEVICE, YOU ARE EXPOSED TO MICROWAVE RADIATION.**

The World Health Organization (WHO) labels this radiation a Class 2B possible cancer-causing agent in the same category as lead, DDT, and chloroform. Cell phones, towers, cordless phones, tablets, laptops, “smart” meters, microwaves and wi-fi routers all add to the “electro-smog.”

**MICROWAVE RADIATION IS HARMFUL TO YOU.** Scientists link this radiation to diseases, both long-term and short-term: cancer, infertility, DNA damage, damage to fetuses, sleep problems, memory and behavior problems, heart problems and many others.

**MANY PEOPLE HAVE BECOME “ELECTRO-HYPER-SENSITIVE” (EHS)** and cannot tolerate even low exposures, seriously impacting their health, job, housing, and social lives.

**GOVERNMENT REGULATIONS DO NOT PROTECT YOU.** FCC guidelines were written decades ago and ignore current science linking microwaves to human disease. Cities like San Francisco have tried to introduce mandatory health warnings on cell phones but the wireless industry has suppressed these efforts with lawsuits and economic boycotts.
